

Application No.: 10/042,232
Amendment Dated: August 7, 2003
Reply to Office Action of: May 7, 2003

THE INTERVIEW SUMMARY

Applicants wish to thank Examiner Zalukaeva for her helpful and courteous discussion with Applicants' Representative on June 30, 2003. During this discussion it was agreed to correct the typographical errors in Formulas I and II. In addition, it was discussed that a method for preparing an asymmetric (meth)acrylate crosslinking agent as claimed is not disclosed or suggested by the references. The cited references use carboxylic acid chlorides and not methacrylic anhydride as claimed.
